

BACKING BRILLIANT MINDS

Increasing performance-based scholarships

ETH Zurich wishes to offer more performance-based scholarships to exceptionally bright Master students from Switzerland and abroad and thus enable them to study for a Master's degree at the ETH Zurich.

By doing so, ETH will not only nurture up-and-coming new talent but also sharpen the students' competitive edge. The initial target is to award 50 scholarships a year to students with the potential to excel.

Excellence Scholarship and Opportunity Programme

This scholarship covers university fees and living costs for the duration of a Master's degree course. In addition, the programme requires students to manage either a research or a development project, supplementary to the obligatory requirements of the Master's course.

Who is awarded a scholarship?

- ETH students and students from other universities (national and international)
- candidates must be among the best of their Bachelor year

What does a scholarship achieve?

- the brightest minds are won for Master degrees at ETH Zurich
- a new generation is educated to the benefit of industry
- the urge for innovation and creativity is given real support
- ETH Zurich gains enhanced competitive edge

Come on board!

Private individuals, ETH alumni in particular, companies and foundations are invited to support this valuable initiative with a financial contribution.
